

# FLIGHT PLAN for RELAUNCHING AMERICA'S ECONOMY

*“My Flight Plan for Relaunching America's Economy is simple: Put America First, clearly identify our enemies, create education worthy of our kids, and spend each and every day reigniting American pride and restoring the American Dream. Please join us.”*

**- Colonel Scott Caine, USAF, Ret.**

America's greatness began with its founding. Our founding documents are the bedrock of our great nation and have sparked the flames of freedom all over the world. That is a legacy we can ALL carry with pride. America has always been a great country; a place big enough for our dreams.

But at this critical moment in history **China, Antifa, The Media, Pelosi,** and a **Paralyzed Congress** all fuel a radical socialist movement seeking to stifle the great engine of liberty and prosperity that our Great American Constitution and Free-market Economy produce.

Simply put, today American Patriotism and Prosperity are in a stall and Congress is piloting us towards a nosedive.

That's why I created my **“Flight Plan for Relaunching America's Economy”** to **Reignite American Patriotism** and **Restore the American Dream** now and into the next century.

As your representative, I will certainly vote the right way, but I will do much more than that. I will amplify YOUR Voice in Washington and around the globe, because I know YOU are committed to reigniting American Patriotism and relaunching the greatest economy the world has ever seen.

I'll do so guided by a clear set of principles. If a policy conforms to constitutional principles and promotes freedom and prosperity; I'll champion it. If it threatens your freedom or family, I'll stand fiercely in opposition.

*Col. Caine is a Fighter Pilot with more than 3,400 flying hours, including combat missions. He retired as the Vice Commander of the 9th Air Force.*

## FLIGHT PLAN PRINCIPLES:

The following principles drive every policy plank and point that is part of our Flight Plan for Relaunching America's Economy. These principles are vital to getting our economy to take off again and ensure this century is the American Century.

- ★ **Reopening Our Economy Faster**
- ★ **Reigniting American Patriotism**
- ★ **Confronting China**
- ★ **Rediscovering that Americans are a Self-Sufficient People**
- ★ **Restoring the American Dream**

## POLICY ACTIONS TO RELAUNCH OUR ECONOMY:

These policies and actions will **Reopen Our Economy Faster**, **Reignite American Patriotism**, **Confront China**, help us **Rediscover Americans are a Self-Sufficient People**, **Restore the American Dream**, and ensure America remains the greatest nation on the face of the Earth.

*Executing the flight plan will stop the spread of Socialism, hold China accountable, and help Florida and America soar!*

- ★ **Reelect President Trump:** We need his tough stance on China and the threat they pose, his belief in the American people, and to continue his America first agenda.
- ★ **Win Back the House:** Nancy Pelosi, AOC, and her squad threaten the very foundation of our capitalist system. We need to elect bold, conservative leaders ready to lead the way for more conservatives in Washington.
- ★ **Implement Term Limits:** Whether it's Joe Biden, Nancy Pelosi, or Bill Posey, career politicians are committed to the status quo. **We need Congressional Term Limits** to return to the desire of our founders and spur problem-solving instead of politics.
- ★ **Get Our Kids Back in the Classroom:** China would love nothing more than our kids to have a lost year of education that could hurt us for decades. Getting our kids back to school is important for their minds and community with other students. It's also critical so parents can fully participate in our economy.

★ **Give a Voice to Conservative Values:** Our country needs more strong leaders amplifying conservative values in the face of an onslaught from the radical left. In these tumultuous times, **young Americans need conservative role models as leaders** and mentors on the local level and national stage.

★ **Expand School Choice:** We need education tailored to the needs of students and families. Whether it's magnet schools, charter schools, voucher programs, virtual learning, homeschooling, or vocational education, we need to empower parents, students, and educators to compete and thrive.

★ **Reform Public Employee Unions, Especially Teachers Unions:** As a military leader, I learned that overly powerful public employee unions often stifle innovation and work against the interests of the very people that employ them...hard-working Americans. We need our public employees to be responsive and good stewards of our tax dollars, our kids, and our future.

***“In order to maintain our role as the world leader, we must confront the China threat.”***  
**- Colonel Scott Caine**

★ **Return our Supply Chains Back to the United States:** Relying on China and other nations for necessities like our pharmaceutical manufacturing is a major national security threat. **It's time for our manufacturers to come back home.**

★ **Take the Lead In 5G Technology:** It's time for a Warp Speed to 5G. With focus, we can protect our data, create a network for our allies, **stop China's power play**, and ensure that China doesn't have access to the world's national intelligence.

★ **Cut Red Tape to Capitalize on the Spirit of American Ingenuity:** We need to make the Trump regulation reductions permanent, expand Telehealth access, and give Americans every opportunity to tackle the biggest issues facing our nation through the private sector. No longer can our government stifle the Spirit of American Ingenuity and Exceptionalism.

★ **Make the Space Coast a Leader for the Space Force:** **Florida's Space Coast is the natural home of the Space Command.** We need leaders in Washington who are committed to this region and securing our future.

★ **Remain a World Energy Leader:** Not only will we **reject the Green New Deal**, we'll protect our current production of oil, natural gas, and coal, and clear the path for brand new and safe technologies like Next Generation Nuclear.

★ **Promote Capitalism:** Our economic system is the best in the world and has pulled countless nations out of poverty. Our leaders must **stand up to this fad of Socialism** and make it clear to all generations the choice is light and freedom or darkness and oppression.

**“We need to limit the reach of government and unleash American Ingenuity”  
- Colonel Scott Caine**

★ **Balance the Budget:** Hard-working Americans make sacrifices to live within their means and we need our government to follow suit. We need to **balance the budget** and implement Zero-Based Budgeting to get the Federal government to focus on priorities that help the American people instead of the well-heeled special interests.

★ **Secure Our Borders:** A nation without borders is no nation at all. Europe has shown us what happens when you don't put your security and nation first. It's time to **build President Trump's Wall** and have an immigration system that works for America.

To execute this Flight Plan for Relaunching our Economy, [we need leaders with the vision, integrity, and backbone to see it through.](#) With your support, we'll have Florida and America soaring again!

## **ABOUT COL. SCOTT CAINE: A LIFE DEDICATED TO SERVICE**

*Colonel Scott Caine is a devoted husband, loving father, faithful Christian, and 30-year veteran of the United States Air Force.*

*As a fighter pilot, Scott's stellar military career included over 3,000 flying hours, primarily flying A-10's, and culminated with his final post as Vice commander of the 9th Air Force, where he led more than 29,000 military men and women.*

*Scott married the love of his life, Pam, in Vero Beach 34 years ago. Together, they have three children and a lovely daughter-in-law who have grown into successful young adults who are pursuing the careers of their dreams.*

*Colonel Scott Caine's greatest professional honor was taking the oath to "Defend the Constitution of the United States against all enemies, foreign and domestic". While Colonel Caine had the privilege of administering that same oath to many under his command, none were more moving than delivering this oath of office to his own son who joined the United States Navy in 2017.*

*He continues to devote his life to protecting the very Constitutional principles that make America and Florida beacons of freedom and opportunity to the world.*

*It's that oath that drives Colonel Caine's desire to serve Florida's Space and Treasure Coast in Congress during these unprecedented times.*

*Col. Caine is an expert on Air & Space Strategy and is a strong advocate for the Space Force.*
